Sol-U-Guard Botanical 2x Concentrate Disinfectant

[Call for Pricing](#)

Changing the Way You Fight Germs

They are everywhere. On countertops, sinks, toilets, floors, doorknobs, and faucets they spread. They are common household germs that invade your home every day. But Melaleuca has an exclusive solution for you that will change the way you disinfect your home. Introducing *Sol-U-Guard Botanical 2x Concentrate Disinfectant* with even more germ fighting ingredients and twice the disinfectant for an even better value.

The Power of Citric Acid and Botanical Thyme Oil

Sol-U-Guard Botanical 2x is still 99.9% effective killing germs and approved by the EPA, but now it's two times concentrated so it lasts twice as long and saves you money. And we've added citric acid as a second powerful disinfectant in addition to botanical thyme oil. Together, these proven botanical ingredients kill over 99.9% of bacteria and viruses on hard, nonporous surfaces, some in as little as 1 minute. Germs don't stand a chance.

New Mild Herbal Scent

Sol-U-Guard Botanical 2x still has the pleasant scent of fresh herbs, but it is significantly milder than the

original *Sol-U-Guard Botanical*. There are no harsh fumes, and no bleach, simply a fresh-smelling botanical disinfectant that is gentle enough to use around kids and pets.
