## Rustic Touch® Furniture Care Orange Scent

[Call for Pricing](#)

*Rustic Touch Furniture Care* enriches your furniture with natural shine, protection, and conditioning through naturally derived conditioners and the protective strength of carnauba wax.

### **A Bright Natural Shine**

Enjoy the fresh scent of oranges while a high-tech polymer adds instant shine to dull surfaces and creates a strong and durable barrier around furniture that keeps wood and leather looking new while repelling unwanted moisture.

### **Added Strength and Scratch Protection**

*Rustic Touch Furniture Care* uses carnauba wax, the hardest of the natural waxes, to add strength and shine to furniture as well as providing an extra layer of protection against nicks and scratches. And unlike other waxes that can produce a cloudy buildup, carnauba wax dries crystal clear, so all you see is a beautiful, natural shine.

### **Moisturize and Beautify**

Whether your furniture is brand new or a cherished heirloom, the key to extending its life is to keep it clean. Dirt and oil substances can penetrate the surface of furniture, drying it out and causing premature cracking or aging. *Rustic Touch Furniture Care* contains a trio of natural conditioners that protect and fortify your furniture, making it look like new now and well into the future.

*Rustic Touch Furniture Care* is part of the *EcoSense* family of cleaners. Created with super-concentrated formulas and biodegradable ingredients, *EcoSense* cleaners are the perfect combination of safety, performance, and value. From dishes and cabinets to floors and furniture, *EcoSense* gives you a cleaner, fresher homeâ€”without harmful chemicals, phosphates or bleach. Itâ€™s the kind of care your home, your family, and the environment deserve. Thatâ€™s clean without compromise. Thatâ€™s *EcoSense*.
