## Lemon Brite® Dishwashing Liquid

[Call for Pricing](#)

Anyone who has ever stood at the sink washing a stack of dishes knows the feeling of dry, cracked hands. That's because the ingredients that typical dish soaps use to strip grease and dirt off dishes can also strip the natural oils and moisture from your skin. Next time, let Lemon Brite dishwashing liquid bring a natural sparkle to your dishes, and give your hands a break! Long-lasting suds help dissolve grease and grime, so your dishes sparkle.

### **Softens Hands While It Cleans**

Other detergents contain chemicals that can dry out your hands, leaving them red and cracked. Lemon Brite contains naturally derived ingredients that work to dissolve grease quickly without irritating your skin, so your hands feel soft long after the dishes are done.

### **Earth-Smart Choice**

Lemon Brite gives you superior dish-cleaning power and leaves dishes spotless without harsh chemicals. Its formula contains biodegradable ingredients, and even the bottle is recyclable.

Lemon Brite dishwashing liquid is part of the EcoSense family of cleaners. Created with super-concentrated

formulas and biodegradable ingredients, EcoSense cleaners are the perfect combination of safety, performance, and value. From dishes and cabinets to floors and furniture, EcoSense gives you a cleaner, fresher homeâ€”without caustic chemicals, phosphates, or bleach. Itâ€™s the kind of care your home, your family, and the environment deserve. Thatâ€™s clean without compromise. Thatâ€™s EcoSense.
