MelaPower® Laundry Detergent Fresh Scent 32 oz (946mL)

[Call for Pricing](#)

Step 2â€” Get cleaner, longer-lasting clothes while being gentler on the environment.

Â Â

Are your kidsâ€™ new clothes wearing out faster than the batteries in your digital camera? Is your little black dress becoming a little gray? Itâ€™s not surprising. The chlorine bleach that some detergents rely on to remove dirt and stains can also remove the brightness from your clothes and irritate your skin. Fortunately, thereâ€™s *MelaPower*. *MelaPower* uses a bleach-free, non-alkaline formula powered with biodegradable cleaners to get out everything your family gets into without wearing out your clothes. And *MelaPower* is super-concentrated, so it not only reduces the impact on the environment, it reduces the impact on your pocketbook.

A Triple Assault on Stains and Dirt

*MelaPower*â€™s unique formula combines three powerful, biodegradable cleaners to annihilate dirt, grime, and odors, so your clothes come out looking and smelling their best.

Melaleuca Oil: The natural solvent powers of Melaleucaâ€™s heritage product penetrate deep into clothes fibers, giving *MelaPower*â€™s effective cleaning agents full access to stains.

Biodegradable Cleansers: *MelaPower* harnesses the natural solvent power of biodegradable cleansers to

literally pull dirt and stains out of clothing.

Rinse Guard: Once the stains are removed, *Rinse Guard* surrounds and traps them, preventing them from re-depositing.

Safer Formula and Cleaner Clothes

You won't find any fillers or unnecessary additives in *MelaPower*. The ingredients in *MelaPower* have been carefully selected to maximize cleaning power while minimizing the impact on the environment. *MelaPower*'s non-alkaline, pH-balanced formula contains no chlorine bleach or caustic chemicals that would dull colors or weaken fabrics.

MelaPower is the core component of the *EcoSense Laundry Care System*, the only product system of its kind. It's the perfect combination of safety, performance, and value. From washing to wearing, you'll get your laundry cleaner, brighter, and better without harmful chemicals like bleach. It's the kind of care your clothes, the environment, and your family deserve!
