MelaGel—the natural balm with Melaleuca Oil for moisturizing scrapes and bites

^

Moisturize bug bites and scrapes with the soothing power of *MelaGel*. The natural beeswax in *MelaGel* creates a breathable "bandage" that moisturizes skin where you need it most. Plus, when you put Melaleuca Oil on first, the staying power of *MelaGel* keeps the natural healing oil in contact with your skin. We also added wheat germ oil, an antioxidant with vitamin E that helps attract water to your skin and keep it hydrated. Finally, *MelaGel*'s cocoa butter lubricates your skin and works to keep skin moisturized with the added vitamins A and D3. A must for every first aid kit or medicine cabinet, *MelaGel* comes in a convenient tube and pocket-size disk.
